### TREATMENT OF PILES

Permanence of cure the true test.

Many so-called pile remedies will afford the user slight temporary relief, and the majority of those afflicted do not expect more than this.

The average sufferer, after having tried every preparation recommended for the cure of pile, comes to the conclusion that there is no cure except by an operation, and rather than undergo this "last resort" he suffers on, resigned to the situation, so far as maybe. The attention of those interested is invited to the following experience:

terested is invited to the following experience:

"After ten years of suffering from blind, bleeding and protruding piles, and after using every remedy I could hear of without any benefit, I finsily bought a fiftycent box of Pyramid Pile Cure, and used it with such good results I bought next a foliar box, which finished up the job. That was nearly six years ago, and as far as piles are concerned I am cured, and have never felt a symptom of them since.

"Many others have used this remedy by my advice, with the same results, and I always recommend it to sufferers with piles." C. H. Potts, Burlington, Kaa.

Testimony like this should convince the most skeptical the Pyramid Pile Cure not only cures, but cures to stay cured. It is in the form of a suppository, can be applied in the privacy of the home, directly to the parts affected, and does its work quickly and painlessly.

Druggists generally sell this famous remedy for fifty cents a package and sufferers are urged to buy a package now and give it a trial to-night, Accept no substitutes.

The people of Indiana seem particular-ty proud of the State structure, and appear to be quite anxions to have it brought to indianapoits after the Fair. The suggestion that it would be fitting to have the building used as the Governor's Mansion met with favor on all sides. Governor Durbin expressed with the idea.

The Indiana Sulfiding was designed primarily as a clubhouse for the use of Indiana visitors to the Exposition. It occupies the highest point on the Plateau of States. From the main reception had of the building, a grand staircase leads to a music-room beneath an art glass dome. At the head of the stairs is a large reading-room.
